

What does a young person want from Family Hubs?

What has worked for me?

- Building a good relationship, good communication
- Signposting
- Being in control of my care
- Being independent
- Being able to voice my concerns and be listened to

What hasn't worked for me?

- Lack of liaison between services
- Lack of transparency
- Long waiting lists – not being supported during this period
- Transitioning into adult services/ support once leaving a service
